

**Project:** Hollow Point Master Plan  
**Location:** Choctaw, Oklahoma  
**Type:** Mixed Use Development -  
 Clubhouse & Rental Cabins

The Hollow Point Master Plan in Oklahoma organizes 64 five-acre private estates around a series of lakes, rivers, and green space. Upon arrival, one is greeted with a contemporary/industrial gate which utilizes gabions as a protective structure, emphasizing a level of permanence. The gem of the Hollow Point Master Plan is inarguably its Clubhouse. This shared amenity sits lakefront and is home to a gym, outdoor swimming pool, lounge, conference center, game room, indoor and outdoor bars, firepit, and multiple covered patio spaces. The glassy entry foyer serves as a center point for all activities. Accompanying the private estates is a series of rental cabins that allow visitors to enjoy all of what this Oklahoman ranch has to offer.
